SKILLS

- **Languages:** Java, Python, C++, JavaScript,
- **Frameworks:** React.js, Node.js, Express.js, NumPy, Pandas, REST API
- **Tools/Platforms:** Git & GitHub, Linux, Streamlit, MySQL, MongoDB
- **Soft Skills:** Critical Thinking, Adaptability, Leadership

PROJECTS

Stock Trading Platform — Full-Stack Web Application [GitHub](#)

Feb'26 – Apr'26

- Architected a **3-tier full-stack application** (React landing site + React trading dashboard + Node.js REST API) replicating core features of India's stock trading platform.
- Developed a **real-time trading dashboard** with watchlist, buy/sell workflows, portfolio holdings with P&L tracking, and data visualizations using **Material UI** and **Chart.js**.
- Built **RESTful APIs** with **Express.js** and **MongoDB** for handling holdings, positions, and order management; implemented **JWT-based authentication** and protected API routes.
- Deployed across Vercel with serverless architecture; implemented **CORS**, **React Context** state management, and **Axios**-based API integration.
- **Tech:** React, Node.js, Express, MongoDB, Material UI, Chart.js REST API, Bootstrap, Vercel.

ProTrack — Real Time Monitoring Construction site: [GitHub](#)

Jan'25 – Mar'25

- Designed and developed an **AI-based real-time construction monitoring system** using **computer vision** to detect safety violations such as **missing helmets, shoes, vests**, and **unauthorized site access**.
- Built a **machine learning-driven web application** using **Python** and **Streamlit** for live monitoring, visualization, and analysis of construction activities.
- Achieved **95% detection accuracy** in construction activity analysis using a **Random Forest model** trained with **pandas, NumPy, and scikit-learn**.
- Reduced **manual monitoring workload by 75%** through automated ML-driven insights and **real-time alert generation**.
- Improved **decision-making efficiency by 85%** with instant performance tracking and data-driven analytics.
- **Tech:** Python, Machine Learning, Random Forest, Streamlit, REST API, MySQL

TRAINING

Machine Learning Made Easy: From Basics to AI Applications| LPU: [Certificate](#)

Jun'25 – Jul'25

- Learned end-to-end ML workflow including data preprocessing, cleaning, feature engineering, and model training.
- Built and evaluated models using train-test split, accuracy metrics, and hyperparameter tuning.
- Collaborated with Python libraries like NumPy, Pandas, Matplotlib, and scikit-learn for ML implementation.
- Completed practical projects applying ML techniques to real-world prediction and classification tasks.
- Gained firsthand experience with scikit-learn and ML algorithms such as Random Forest, Decision Trees, Regression, and Clustering.

CERTIFICATES

- Cloud Computing | [NPTEL Online Certification](#) Oct'25
- SQL(Advanced) | [Hacker Rank](#) Oct'25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [Infosys](#) Aug'25
- Responsive Web Design | [Freecodecamp](#) Sep'23

ACHIEVEMENTS

- **3 Star** Rating in Problem Solving on Hacker Rank Oct'25
- **4 Star** Rating in Java on Hacker rank Aug'25
- **3 Star** Rating in Python on Hacker Rank Mar'23

EDUCATION

- **Lovely Professional University** Phagwara, Punjab
Bachelor of Technology – Computer Science and Engineering; **CGPA:6.54** Aug'23 - Present
- **Kalpanath Singh Kanya Inter College** Siddharthnagar, Uttar Pradesh
Intermediate; **Percentage: 71.68%** Apr'21 – Mar'22
- **Swami Vivekanand Inter College** Siddharthnagar, Uttar Pradesh
Matriculation; **Percentage: 74.66%** Apr'19 – Mar'20
